

NORTH CAROLINA GENERAL ASSEMBLY

2025 Session

Legislative Incarceration Fiscal Note

Short Title: HALO Law.
Bill Number: Senate Bill 985 (First Edition)
Sponsor(s): Sen. Chris Measmer

FISCAL IMPACT SUMMARY

Criminal offenses are classified as misdemeanors (Class 3 as the lowest and Class A1 as the highest) and felonies (Class I to Class A). There are three types of legislative changes to offenses that may result in a fiscal impact to the State’s criminal justice system: creating a new offense, changing the class of an existing offense, or changing the scope of an existing offense.

This proposed legislation would create a Class 2 misdemeanor for approaching a first responder with specified intent after a verbal warning. Because this is a new offense, there is no data to predict how many individuals may be charged or convicted. **Therefore, Fiscal Research is unable to project the fiscal impact** of the proposed legislation on the criminal justice system.

Each additional person charged under the proposed offenses will have a cost to the judicial system and each additional person convicted will have a cost to the correction system. The **cost of one charge and conviction** is listed in the table below, along with the percent of cases that incur those costs at that offense level.

Cost of One Charge and Conviction										
Offense Class	Prosecution and Defense		Active Sentence					Suspended Sentence		
	Admin. Office of the Courts	Indigent Defense Services	DAC - Confinement			DAC - Post-Release Supervision (PRS)		DAC - Probation		
Misdemeanor	Cost	Cost	Rate	Cost	Length (Mo.)	Cost	Length (Mo.)	Rate	Cost	Length (Mo.)
2	\$183	\$254	Active sentences for misdemeanor convictions are served in County jail.			Misdemeanants do not receive PRS.		75%	\$3,650	13
<i>Note: Court costs reflect the average cost per disposition. Costs for active sentences, probation, and post-release supervision reflect the total cost of the sentence or supervision period. Costs to the Statewide Misdemeanant Confinement Program (SMCP) only occur for active sentences > 90 days and impaired driving.</i>

FISCAL ANALYSIS

Section 2 of the proposed legislation establishes G.S. 14-223.1 (Approaching a first responder with specified intent after a warning). It **creates a Class 2 misdemeanor** for any person, after receiving a verbal warning from a first responder not to approach, to knowingly and willfully violate the warning and approach or remain within 25 feet with the intent to do any of the following: 1) impede or interfere with the first responder’s ability to perform his or her duty; 2) threaten the first responder with physical harm; or 3) harass the first responder.

It is not known how many offenders might be charged or convicted of this new offense. Some of the conduct included in the new offense could currently be covered under G.S. 14-223, Resisting officers, which is a Class 2 misdemeanor or G.S. 14-277.1, Communicating threats, which is a Class 1 misdemeanor. There were 3,670 convictions under G.S. 14-223 and 1,147 convictions under G.S. 14.277.1 for these offenses in FY 2023-24; however, no data is available to indicate how many of those convictions involved conduct covered under the new offense. Thus, **Fiscal Research is unable to provide a cost projection for this bill.**

Capital Expenses

Capital costs emerge when prison bed demand exceeds capacity. Based on the most recent prison population and bed capacity projections from the Sentencing and Policy Advisory Commission (SPAC), the State will have sufficient prison beds for the five-year fiscal note period. Therefore, Fiscal Research anticipates there will be **no additional prison capital requirements** as a result of this proposed legislation.

Operating Expenses

The table in the Fiscal Impact Summary lists the costs specific to the charge included in this proposal.

TECHNICAL CONSIDERATIONS

- Offense changes are typically effective on December 1. FRD assumes that costs incurred in the first year to the judicial and correction systems would be less than annualized costs due to lag time in charges and convictions.
- This estimate assumes that expanding existing or creating new criminal offenses produces no deterrent or incapacitative effect on crime rates. Likewise, FRD assumes no deterrent

effects for any modifications to criminal penalties. The estimates in this Incarceration Note make no assumptions about the larger impact on crime rates or costs to society or the State.

- This estimate makes no prediction regarding the likelihood that a prosecutor will charge an offense based on any proposed increases or decreases to the offense class level. This estimate also does not attempt to predict the impact of offense class changes on plea negotiations. FRD assumes the proposed offense class is charged and convicted at the same rate as the prior level.
- For reference, Appendix A to this document shows the costs per charge/conviction for each class of offense in North Carolina.

LEGISLATIVE FISCAL NOTE – PURPOSE AND LIMITATIONS

This document is an official fiscal analysis prepared pursuant to Chapter 120 of the General Statutes and rules adopted by the Senate and House of Representatives. The estimates in this analysis are based on the data, assumptions, and methodology described in the Fiscal Analysis and Technical Consideration sections of this document. This document only addresses sections of the bill that have projected direct fiscal impacts on State or local governments and does not address sections that have no projected fiscal impacts.
