PART I

INTRODUCTION

The Joint Legislative Oversight Committee on Mental Health, Developmental Disabilities, and Substance Abuse Services was established by the enactment of House Bill 1519 (Appendix I) during the 2000 Session in order to recommend a plan to reform North Carolina’s public mental health, developmental disabilities, and substance abuse (MH/DD/SA) services. This Committee is composed of eight members of the Senate and eight members of the House of Representatives. The authorizing legislation mandates that the Committee submit an interim report to the General Assembly by January 2001 and periodically thereafter. The first interim report was submitted in January 2001. A progress report on the reform bill HB381 (Appendix II) was submitted to the General Assembly in October 2001, which covered changes in governance and LOC activities to date. A second interim report on critical implementation activities was submitted in May 2002. This third interim report covers the Oversight Committee’s activities between May 2002 and March 2003.

SUMMARY OF ACTIVITIES

The Joint Legislative Oversight Committee on Mental Health, Developmental Disabilities, and Substance Abuse Services (MH/DD/SAS) recommended in its October 2001 progress report that North Carolina begin its multi-year reform of the public mh/dd/sas system by focusing on assuring accountability for public MH/DD/SA services offered to consumers and families in North Carolina. HB 381 was introduced during the 2001 Session and passed in mid-October. HB 381 strengthens the State’s oversight and monitoring role, as well as its standard-setting responsibilities. The Department of Health and Human Services is required to develop a coherent State MH/DD/SAS Plan, reconcile and simplify State rules and standards, coordinate policy among its various Divisions, and delineate a State Business Plan describing how the Division of MH/DD/SAS will manage the resources entrusted to it, and develop criteria for the submission of Local Business Plans to be submitted by Counties.
HB 381 requires the LOC to receive quarterly progress reports from the Secretary of the Department of Health and Human Services to fulfill its oversight responsibility for the reform plan. It also requires the LOC to review progress of state plan, and emerging implementation concerns related to HB 381.

The LOC did not meet between May and October, but began the Committee meetings in November 2002. Three meetings have been held in November 2002, January 2003, and February 2003. At the February LOC meeting, a resolution to propose a children’s bill to study integration of services for children with multi-system needs was made. HB 169/SB 262 were introduced in March 2003.

Areas of LOC focus during the report period included the following:

- The progress and quarterly report on the Department of Health and Human Services state plan implementation
- The reorganization plan of the Division of MHDDSAS
- Transition of consumers from state hospitals to community and concurrent community capacity building
- Technical assistance from consulting firm engaged by the Division
- Submission of letters of intent from counties and development of business plans for local management entities (LMEs) and emerging concerns during the transition
- Development of cost modeling for LMEs and services, and establishment of uniform service standards
- CAP-MR waiver redesign
- The State’s technical assistance to counties and areas for transition planning
- Integration of services to children with multi-system needs

Following are minutes of three Legislative Oversight Committee meetings from November 2002 to March 2003.
November 13, 2002: Oversight Committee Meeting

The Co-Chairs, Representative Verla Insko and Senator Steve Metcalf, welcomed the members back following the passage of the state budget and rigorous statewide elections. They thanked everyone for their hard work over the last few months in overseeing the implementation of HB 381. They announced that a decision regarding the General Assembly leadership is still pending.

Representative Insko thanked Senator Martin and Representative Esposito for their contributions during their tenure as legislators, not only to North Carolina and the General Assembly, but also to the populations this Committee serves. She also welcomed Dr. Lin back as Project Manager to the Committee.

Dr. Lin gave her project management report on the last year’s activities, and noted that the progress made in moving the reform legislation was impressive, both with the LOC (in fulfilling the task of restructuring MHDDSAS Commission, and in reviewing financing strategies), and with the Department, area programs and the counties (implementation tasks are on track with general acceptance of a local management entity concept). She noted that there are still pending concerns about the transition planning—how consumers will be assured of services needed as the governance changes and as the State continues with hospital discharges and community services development.

Dr. Rich Visingardi, Director of DMHDDSAS, reported on the Division’s reorganization efforts and walked the Committee through the table of organization and intended objectives for restructuring. Follow-up questions from the Committee ensued. Senator Foxx asked for clarification on the proper responsibility for licensing. Senator Martin asked if the reorganization would ensure needed attention to special needs of the three disability groups. Dr. Visingardi gave explanation for each question.
Senator Allran asked for more explanation of Quality Management, Best Practice and Justice System teams. Representative Insko asked if as a result of the reorganization, there would be concurrent savings. Dr. Visingardi provided answers to Senator Allran’s question and noted for Representative Insko that the reorganization will reduce the staffing from 215 to 180.

Senator Metcalf asked about the role of Consumer Empowerment Team in the reorganization plan, as it is the intent of the reform legislation to provide a strong consumer voice at the local and state levels. Dr. Visingardi responded that this indeed is the intent and during implementation some local areas are moving faster than others. However, the Division is actively recruiting for the Division Advocacy and Consumer Services chief.

Dr. Visingardi reviewed a planning chart, which showed the movement from state facilities to communities. He underscored the importance of orderly transition.

Ms Tara Lawson, deputy director of the Division of MHDDSAS, gave an update on the plan to develop local governance structure. All 100 counties have noted their preference to be included in Phase I, II, or III, with those interested in being part of Phase I having to submit their business plan by July 2003. The three phases are consistent with the reform bill’s requirement for a gradual implementation schedule. The Division has identified liaison staff for each local program to work closely on the plan development.

Mr. Don Willis from the Division responded to additional inquiries from the group on transition of consumers from state hospitals to community settings by describing the process and follow-up monitoring. He mentioned that some consumers currently are awaiting transfers to other states.

Senator Dannelly asked the length of time it takes for the inter-state transfers to take place. Mr. Willis replied that it is contingent on the receiving state’s cooperation, which is uneven.

Mr. John O’Brien, consultant from the Technical Assistance Collaborative (TAC), gave an overview of the scope of work requested by the Division. TAC will be assisted by Pareto Solutions in developing evidence-based best practices for the community system, optimizing
federal revenue share by financing rehabilitation services, developing strategies to enhance
provider participation, and cost modeling to standardize infrastructure cost for local
management entities, as well as services. He noted that some of the consulting reports would
become available in the spring, with a final report due in July 2003.

Representative Insko asked the audience for comments. Several public members offered
comments on hospital downsizing and involvement of consumers and advocates on the local
advisory committees. Representative Insko noted that the LOC project management office
would follow these concerns.

January 21, 2003: Oversight Committee Meeting
Representative Insko called the meeting to order and asked Senator Metcalf to make opening
comments. He thanked members and the audience for their faithful attendance. He stated that
there would be transition activities involving committee membership and possibly the chairs,
but they must all await appointments by the House and Senate leadership. Representative
Insko added that the greatest achievement has been the reestablishment of trust among
stakeholders, people are communicating and clients and consumers are the primary focus. She
thanked Senator Martin for his service and thanked staff for their hard work.

Dr. Alice Lin, Project Manager, presented her Project Manager's Report beginning with a
summary of activities of the last three months. She reported that after reviewing the latest
quarterly report from the Division, she suggested a slight format change to include barriers and
problem areas along with accomplishments, in order for the Oversight Committee to be aware
of emerging problems. She also reviewed areas of focus, such as reorganization, transitioning
consumers from hospitals into the community, building community capacity and following the
progress of the business plans received from the Area Programs and Area Authorities.

Senator Dannelly asked that in monitoring the reform efforts, special attention be given to the
negative impact of budget cuts on services to consumers. Dr. Lin said this would be attended
to.
Dr. Visingardi reported on the progress of the reorganization and introduced Mr. Chris Phillips as the Chief of Advocacy and Consumer Services. He mentioned that by March 2003 the reorganization plan would become operational. He then reviewed the progress on the submission of local business plans. Of the 32 submitted so far, some required additional technical assistance in consolidating functions.

Senator Purcell asked Dr. Visingardi address the issue of divestiture. Dr. Visingardi said that there are concerns about rate and reimbursement structure, and the Division is working closely with local area programs to avoid any potential de-stabilization in the transition.

Representative Nye asked if anyone is monitoring the provider network to assure of their credibility to avoid “flight by night” operation. Dr. Visingardi responded that the first line of response should originate at the local community level, with state oversight.

Representative Insko asked if there is a process to certify providers to assure quality. Ms. Tara Larson from the Division explained the current licensing and certification process in place.

Mr. Don Wills from the Division gave an extensive report on the expansion of community capacity and reduction of reliance on state psychiatric hospitals. He shared a multi-year census reduction plan for the state hospitals and reinvestment of the “bridge funds” into communities for expansion or development of alternative services. He explained the formula for allocating the funds to counties.

Senator Metcalf thanked Mr. Willis for his precise presentation and asked members for comments. Most of the follow-up questions centered around the perceived unfairness in rewarding counties that have historically overused the state hospitals, such as Wake County’s proposed funding allocation despite its over-utilization of Dorothea Dix Hospital. Senator Foxx stated that the enhanced funds for counties that have failed to develop community service alternatives might have also short-changed those counties that have performed well. Senator Purcell cited his region as one being short-changed and questioned the fairness as well. Representative Nye added his concern about the allocation formula. Representative Earle expressed her unhappiness with the formula, calling it “rewarding bad behavior.”
He further inquired about the potential in discharging patients from state hospitals to homeless shelters. Mr. Wills responded that the data showed none had been discharged into shelters.

Senator Metcalf shared his concerns that savings from downsizing the hospitals should stay in the system, and urged the members to continue with their advocacy on behalf of citizens in need of MHDDSA services.

Representative Insko asked Mr. Willis to distinguish the difference between purchasing bed days by area program and transferring money from hospitals to the community to build community capacity. Mr. Willis said that an area program would be given a set number of bed days, which are divided between acute admissions, adult long-term, adolescence admission and general admission. If the area program exceeds it's bed day allocation, then there would be a financial consequence, such as a per diem cost for the use of the bed. This would encourage area programs that are over utilizing state hospitals now to build community capacity.

Dr. Tony Broskowski with Pareto Solutions spoke on the estimate of the LME cost modeling and cost of services. He reviewed data collected in determining cost estimates. He stated that he cost compiled thus far showed that North Carolina would be in step with the national average. Dr. Broskowski then explained to committee members how information was gathered and analyzed to develop cost modeling.

Representative Nye asked for further clarification on the graphs of variance among area programs. Dr. Broskowski explained that the variance reflects different perceived priorities in terms of LME functions by the local programs.

Senator Metcalf asked about the difference between the actual need and the treated need in North Carolina, whether North Carolina has a lower percentage of individuals receiving services than other states. Dr. Broskowski replied that North Carolina is at the bottom half of the number of states in terms of treated individuals.
Representative Insko accepted comments from the audience. One individual gave reactions to the discussion on financing formula for community services, and another noted lack of services for her son with mental illness. A representative from the public service union commented on the impact on employee morale at the hospitals during the downsizing process.

Senator Metcalf closed the meeting by giving a review of the accomplishments of the committee and spoke to the higher level of trust that has been developed among those most concerned about the welfare of people with disabilities. He underscored the importance of adequate funding in order for the reform to succeed.

**February 24, 2003: Oversight Committee Meeting**

Representative Insko called the meeting to order and explained that the purpose of the meeting was to discuss future legislation and to brief members on issues of the reform. Dr. Richard Visingardi, Director of the Division of MHDDSAS, gave a progress report on the CAP-MR waiver redesign. He explained that the purpose of the CAP waiver is to find out what is not working with the current CAP waiver, and to create more community capacity for individuals with DD. A person-centered programming, rather than slots, shall be used for the new waiver. He further explained that CAP waiver redesign would place North Carolina more on the par with other DD waivers he has seen in other states.

Dr. Stan Slawinski, Chief of State Operated Services for the Division announced that on January 30, 2003, DMA and the Division created a technical amendment to the 1915 waiver and submitted it to CMS (Center for Medicaid Services). At the earliest, it would be May 1, 2003 before implementation takes place and possibly later. He reviewed for the Committee the requirements of eligibility for CAP-MR funding.

Ms. Lisa Haire, Division of MHDDSAS, addressed the three substantive changes to the waiver that were submitted to CMS. The first change, removed the service called "live in caregiver." It could not be determined how a recipient of the waiver service could receive money without it counting against their income and ultimately effect their Medicaid eligibility. The second change was to limit habilitation service for children and third, to change the personal care definition to incorporate the language to provide support, supervision and engage consumer
participation. Also, the respite definition was changed, removing the word "irregular" returning the respite definition to the previous meaning. Also added was the business model consumer directed support that provides some flexibility and control to consumers and family over care staff.

Senator Purcell asked Dr. Visingardi if the present system was over regulated. He responded that they were probably over regulated and not well managed.

Senator Foxx observed that abuse of the waiver program occurs when there is a failure in the System to identify and resolve problems. Dr. Visingardi acknowledged the lack of a real system and the chain of accountability. The Division is moving toward an aggregate budgeting system to improve its management of the program.

Representative Insko added that if we aggregate money we should be able to provide services to more people. She asked if this would change the experience of an individual consumer. Dr. Visingardi said that the habilitation part pays more than the personal care part. This issue is being examined closely.

Representative Nye asked whether the same provider could provide multiple services such as CSB and PCS, and whether they can accumulate hours. Dr. Visingardi replied yes to both questions, adding that the practice is actually encouraged, to ensure well coordinated care, as long as it is part of the individual service plan.

Representative Insko informed the Committee that a one-page briefing Executive Summary on HB 381 and Implementation is available which would be an excellent source of reference. Also available for members, a handout addressing Medicaid Disproportionate Share Funds from Secretary Hooker Odom and Deputy Secretary Cansler.

Representative Insko said that regarding the Children's legislation, the Reform Bill and the State Plan do not specifically speak to children's issues and that Senator Foxx and others saw an opportunity for improvement. Representative Insko reiterated that the proposed legislation is to authorize a study that would provide recommendations to the LOC and other interested parties.
Dr. Alice Lin, Project Manager, clarified that though not focusing on the children’s issue, in HB 381 there is a section on interagency collaboration. She explained that the genesis for a children’s bill came from Senator Foxx’s many visits to children's programs and her finding that there was a lack of coordinated assessment and access to services. Children with multiple problems often do not receive proper service. More often than not, children and youth found themselves enrolled in a given children’s system by sheer happenstance, rather than careful planning based on needs. This is particularly true of those children with involvement in multiple systems, such as education, social services, juvenile justice, mental health, developmental disabilities, and substance abuse. Dr. Lin reviewed the goals and objectives of the bill: survey and analyze evidence-based best practices, reduce duplication in assessments, and make recommendations for changes in the North Carolina children’s service systems.

Senator Purcell wanted to know how much the study would cost. Dr. Lin replied that it should not be too costly, less than $50,000 according to the initial estimate.

Senator Metcalf moved that the Oversight Committee authorize a bill to look at children's services and to make recommendations as outlined in the handout. The Committee approved the motion.

Concerning recent articles about disproportionate share, Representative Earle asked when DHHS would be reporting to the Appropriations Committee. Senator Dannelly asked why did the General Assembly find out about it belatedly in the newspaper instead. This concern will be conveyed to the Secretary of DHHS.
APPENDIX I
AN ACT TO ESTABLISH THE JOINT LEGISLATIVE OVERSIGHT COMMITTEE ON MENTAL HEALTH, DEVELOPMENTAL DISABILITIES, AND SUBSTANCE ABUSE SERVICES, AND TO DIRECT THE OVERSIGHT COMMITTEE TO DEVELOP A PLAN TO REFORM THE STATE SYSTEM FOR MENTAL HEALTH, DEVELOPMENTAL DISABILITIES, AND SUBSTANCE ABUSE SERVICES.

Whereas, in 1998 and 1999 the General Assembly directed the State Auditor to coordinate and contract for a study of the State Psychiatric Hospitals and Area Mental Health Programs; and

Whereas, the "Study of State Psychiatric Hospitals and Area Mental Health Programs" ("Study"), April 1, 2000, was conducted by the Public Consulting Group, Inc., under the coordination of the State Auditor, and with the cooperation and assistance of the Department of Health and Human Services and other organizations and individuals; and

Whereas, the findings and recommendations of the Study present a comprehensive blueprint for reform of the State's mental health system; and

Whereas, the General Assembly endorses the findings of the Study; and

Whereas, effective implementation of mental health reform requires continuous legislative oversight to review and consider the recommendations of the Study and other matters and to recommend the necessary changes to State law and policy; Now, therefore,

The General Assembly of North Carolina enacts:

Section 1. Findings. -- The General Assembly finds that:

(1) The State and local government entities are not using effectively and efficiently available resources to administer and provide mental health, developmental disabilities, and substance abuse services uniformly across the State.

(2) Effective implementation of State policy to assist individuals with mental illness, developmental disabilities, and substance abuse problems requires that a standard system of services, designed to identify, assess, and meet client needs within available resources, be available in all regions of the State.

(3) The findings of recent comprehensive independent studies, and recent federal court decisions, compel the State to consider significant changes in the operation and utilization of State psychiatric hospital services.

(4) State and local government funds for mental health, developmental disabilities, and substance abuse services must be committed on a continuing, stabilized basis and will need to be increased over time to ensure that the purposes of mental health system reform are achieved.

(5) Reform of the State mental health, developmental disabilities, and substance abuse services system is necessary and should begin immediately. Reform efforts should focus on correcting system inefficiencies, inequities in service availability, and deficiencies in funding and accountability, and on improving and enhancing services to North Carolina's citizens.

Section 2. Oversight Committee Established. -- Chapter 120 of the General Statutes is amended by adding the following new Article to read:

"ARTICLE 27.

The Joint Legislative Oversight Committee on Mental Health, Developmental Disabilities, and Substance Abuse Services.

§ 120-240. Creation and membership of Joint Legislative Oversight Committee on Mental Health, Developmental Disabilities, and Substance Abuse Services.

(c) Terms. -- Terms on the Committee are for two years and begin on the convening of the General Assembly in each odd-numbered year, except the terms of the initial members, which begin on appointment and end on the day of the convening of the 2001 General Assembly. Members may complete a term of service on the Committee even if they do not seek reelection or are not reelected to the General Assembly, but resignation or removal from service in the General Assembly constitutes resignation or removal from service on the Committee.

A member continues to serve until the member's successor is appointed. A vacancy shall be filled within 30 days by the officer who made the original appointment.
Section 3.(c) Purpose and Content of the Plan. – The Plan shall provide for systematic, phased-in implementation of changes to the State's mental health system. In developing the Plan, the Committee shall do the following:

(1) Review and consider the findings and recommendations of the State Auditor/PCG, Inc., Study.
(2) Report to the 2001 General Assembly upon its convening the changes that should be made to the governance, structure, and financing of the State's mental health system at the State and local levels. The report shall include:
   a. An explanation of how and the extent to which the proposed changes are in accord with or differ from the recommendations of the State Auditor/PCG, Inc., Study.
   b. Proposed time frames for implementing mental health system reform on a phased-in basis, and the recommended effective date for full implementation of all recommended changes.
   c. An estimate of the amount of State and federal funds necessary to implement the changes. The estimate should indicate costs of each phase of implementation and the total cost of full implementation.
   d. An estimate of the amount of savings in State funds expected to be realized from the changes. The estimate should show savings expected in each phase of implementation, and the total amount of savings expected to be realized from full implementation.

The Committee shall make a progress report on its study of developmental disabilities services to the 2001 General Assembly upon its convening.
(4) Study the feasibility and impact of and best methods for downsizing of the State's four psychiatric hospitals. In conducting this study, the Committee shall:
   a. Take into account the need to enhance and improve community services to meet increased demand resulting from downsizing, and
   b. Consider the findings and recommendations of the MGT of America Report of 1998, as well as the State Auditor/PCG, Inc., Study.
(5) Consider the impact of mental health system reform on quality of services and patient care and ensure that the Plan provides for ongoing review and improvements to quality of services and patient care.
(6) Ensure that the Plan provides for the active involvement of consumers and families in mental health system reform and ongoing implementation.
(7) Address the need to enhance and improve substance abuse services, including services for the prevention of substance abuse.
(8) Recommend a mental health, developmental disabilities, and substance abuse services benefits package that will provide for basic benefits for these services as well as specific benefits for targeted populations.
(9) Take into account the State's responsibility to enable institutionalized persons and persons at risk for institutionalization to receive services outside of the institution in community-based settings in accordance with the United States Supreme Court decision in Olmstead vs. L.C., (1999).
(10) Identify and address issues pertaining to the administration and provision of mental health services to children.
(11) Address issues, problems, strengths, and weaknesses in the current mental health system that are not addressed in the State Auditor/PCG, Inc., Study but that warrant consideration in the development of a reformed mental health system.
(12) Consider whether the State shall implement a contested case hearings procedure for applicants and recipients of mental health, developmental disabilities, and substance abuse services.

Section 3.(d) Subcommittees. -- The Committee shall establish one or more subcommittees to consider and develop specific focus areas of the Plan. Each subcommittee shall be the working group for the focus area assigned by the Committee cochairs. The Committee cochairs shall appoint the cochairs and members of each subcommittee from the Committee membership. The Committee cochairs shall invite representatives from the following to participate as nonvoting members of each subcommittee:

(1) Providers of mental health, developmental disabilities, substance abuse, long-term care, and other
appropriate providers.

The Committee cochairs shall assign the focus area for each subcommittee. Each subcommittee shall carry out its assignment as directed by the Committee cochairs and shall provide its findings and recommendations to the Committee cochairs for final decision by the Committee.

§ 122C-124.1. Actions by the Secretary when area authority or county program is not providing minimally adequate services.

The notice shall state the particular deficiencies in program services or administration that must be remedied to avoid action by the Secretary under this section. The area authority board or county program shall have 60 days from the date it receives notice under this subsection to take remedial action to correct the deficiencies. The Secretary shall provide technical assistance to the area authority or county program in remediying deficiencies.

(b) Suspension of Funding; Assumption of Service Delivery or Management Functions. – If the Secretary determines that a county, through an area authority or county program, is not providing minimally adequate services, in accordance with rules adopted by the Secretary or the Commission, to persons in need in a timely manner, or fails to demonstrate reasonable efforts to do so, the Secretary, after providing written notification of the Secretary's intent to the area authority or county program and to the board of county commissioners of the area authority or county program, and after providing the area authority or county program and the boards of county commissioners of the area authority or county program an opportunity to be heard, may:

County funding of the area authority or county program shall continue when the State has assumed control of the catchment area or of the area authority or county program. At no time after the State has

Upon assumption of control of service delivery or management functions, the Department shall, in conjunction with the area authority or county program, develop and implement a corrective plan of action and provide notification to the area authority or county program and the board of county commissioners of the area authority or county program of the plan. The Department shall also keep the area authority board and the board of county commissioners informed of any ongoing concerns or problems with the delivery of services.

(c) Appointment of Caretaker Administrator. – In the event that a county, through an area authority or county program, fails to comply with the corrective plan of action required when funding is suspended or when the State assumes control of service delivery or management functions, the Secretary, after providing written notification of the Secretary's intent to the area authority or county program and the applicable participating boards of county commissioners of the area authority or county program, shall appoint a caretaker administrator, a caretaker board of directors, or both.

The caretaker administrator and the caretaker board shall perform all of these powers and duties. The Secretary may terminate the area director or program director when it appoints a caretaker administrator. The Secretary shall develop criteria for the approval of direct service provision by area authorities and county programs in accordance with this section and as evidenced by compliance with the local business plan. For the purposes of this section, a qualified public or private provider is a provider that meets the provider qualifications as defined by rules adopted by the Secretary.

(b) All area authority or county program services provided directly or under contract shall meet the requirements of applicable State statutes and the rules of the
Commission and the Secretary. The Secretary may delay payments and, with written notification of cause, may reduce or deny payment of funds if an area authority or county program fails to meet these requirements.

(c) The area authority or board of county commissioners of a county program may contract with a health maintenance organization, certified and operating in accordance with the provisions of Article 67 of Chapter 58 of the General Statutes for the area authority, authority or county program, to provide mental health, developmental disabilities, or substance abuse services to enrollees in a health care plan provided by the health maintenance organization. The terms of the contract must meet the requirements of all applicable State statutes and rules of the Commission and Secretary governing both the provision of services by an area authority or county program and the general and fiscal operation of an area authority or county program and the reimbursement rate for services rendered shall be based on the usual and customary charges paid by the health maintenance organization to similar providers. Any provision in conflict with a State statute or rule of the Commission or the Secretary shall be void; however, the presence of any void provision in that contract does not render void any other provision in that contract which is not in conflict with a State statute or rule of the Commission or the Secretary. Subject to approval by the Secretary and pending the timely reimbursement of the contractual charges, the area authority or county program may expend funds for costs which may be incurred by the area authority or county program as a result of providing the additional services under a contractual agreement with a health maintenance organization."
