The General Assembly of North Carolina enacts:

**PART I. DEPARTMENT OF TRANSPORTATION CHANGES**

**DOT RESIDUE PROPERTY DISPOSAL**

**SECTION 1.(a)** G.S. 136-19 is amended by adding a new subsection to read:

"(a) Remainder properties acquired in connection with acquisition of right of way shall be disposed of as follows:

- (1) The sale of all residues will be by public sale except as hereinafter specified.
- (2) Residue properties sold by public sale may be sold by sealed bid, or by auction at the election of the Right of Way Branch. The sale of such properties must be advertised by at least one of the following methods:
  - a. Publication in a newspaper having general circulation in the county in which the property is situated.
  - b. On a Department of Transportation website.
  - c. By placement of a "For Sale" sign on the residue.
- (3) After opening bids or closing of auction, upset bids may be considered. The high bid shall be presented to the Board of Transportation at its next regular meeting after the date of the sale for rejection or acceptance. The Department of Transportation may reject all bids if the Department does not consider the bids to be in accord with the appraised or fair market value as determined by the Department.
- (4) Residue properties sold by public sale may also be sold by real estate brokers licensed in North Carolina at the election of the Chief Engineer. The highest offer to purchase shall be presented to the Board of Transportation at its next regular meeting after the acceptance of the offer to purchase. The Department of Transportation may reject all offers to purchase if the Department does not consider them to be in accord with the appraised or fair market value as determined by the Department.
- (5) Those residue properties located adjacent to controlled access projects that are landlocked may be sold to the adjoining property owner by negotiation rather

than public sale for a consideration that is approved by the Division Right of Way Agent and the Right of Way Unit Manager.

(6) Residue properties may be sold to state agencies and institutions and other governmental units by negotiation rather than public sale, and may be donated provided their future use is for public purposes.

(7) Residue acquired in connection with highway purposes may be used for the purpose of exchange with a public utility company in part or in full consideration for property to be acquired for highway purposes from the public utility company. Such exchanges shall be based on the appraised values of the surplus property and the property to be acquired for highway purposes. Residue property acquired in connection with right of way for a project may be used for the purpose of exchange in part or full consideration for right of way being acquired from another property owner on the project. Such exchanges shall be based on the appraised values of the residue property and the right of way to be acquired.

(8) Residues which have an area of one acre or less and a value of twenty-five thousand dollars (\$25,000) or less and the highest and best use is for assemblage with adjacent property may be sold without advertising by negotiations rather than public sale to an adjoining owner. The Division Right of Way Agent together with an Area Appraiser will determine the value of the residue. Factors such as the after value as indicated in the original appraisal, sales of similar properties, and sales of other residues, if any, in the area may be considered in determining the value. After a value has been established, the Division Right of Way Agent or their designee may negotiate with the adjoining owners concerning the disposal of each residue. The decision of the Division Right of Way Agent to accept and complete a sale is final.

(9) The Manager of Right of Way shall dispose of residues with values of less than five thousand dollars (\$5,000) as determined in accordance with subdivision (8) of this subsection, by executing and delivering on behalf of the Department of Transportation, a quit claim deed to the buyers of such residues, after the transactions are first approved by the Board of Transportation. Conveyances of residues with values of less than five thousand dollars (\$5,000) shall not require the approval of the Governor and Council of State.

(10) Residue properties or portions of residue properties acquired in connection with right of way for a project and located outside the right of way for that project may be sold by negotiation rather than by public sale to property owners and tenants who are displaced by the project for relocation of the displacee. Such sales shall be based upon the appraised value of the residue properties.

(11) Except as noted in this subsection, all sales of surplus lands, including but not limited to surplus rights of way, residues, and uneconomic remnants, require the approval of the Board of Transportation."
