NOTE: Total number of students is NOT unduplicated. Students receiving aid from multiple programs are counted once in each program.

¹"Other" includes lottery, tuition, and trust fund funds.

² Approximate number of students and approximate award data is for the expenditure reporting year. Additionally, average awards include awards of one term.

³ These programs are either no longer in operation in FY 2012-13 or are being phased-out beginning in FY 2012-13.

⁴ These programs have been consolidated into the Forgivable Education Loans for Service program, but still have renewals for earlier program participants.

⁵ Total reported spending from all sources for this program is actual expenditures; however, the split between federal and State funding is an estimate. The Department of Health and Human Services reports that 78.8% of funding for this program is federal and 21.3% is State General Fund appropriations.
