

March 16 ANER Committee Meeting Follow-up

NC Biotechnology Center

1. Where are the biotechnology-related organizations located in the State?

The Biotechnology Center provides the following interactive map where users can focus into specific areas of the State and see which organizations are operating there. The map is available at <http://directory.ncbiotech.org/activity-map>.

NCBiotech Company Directory

This map shows the locations of bioscience companies in North Carolina.

Primary activities

Contract Research and Testing
Production and Manufacturing
