**Funding Source(s):** The Golden Leaf Foundation

**Justification for Position** (including description of duties and responsibilities):

The North Carolina Community College System (NCCCS) is requesting approval to establish six full-time positions. The NCCCS was awarded a grant from the Golden Leaf Foundation Board of Directors to establish a Biotechnology Office within the Community College System as part of our efforts to expand the biotechnology industry in North Carolina. The Biotechnology Office will coordinate our BioNetwork System which includes the development of five Community College Functional Skill Centers; management of innovation activities and equipment funds; participation in economic development recruitment strategies and activities; occupation of a shared-use facility; and development of web-based communications.

The positions will be established as subject to the state personnel act (SPA) and will be time-limited in accordance with grant funding. The total amount of grant funding is \$8,700,000 for a period of 36 months, beginning August 7, 2003.

**Accounting Technician:** This position will report to the Vice President for Business and Finance and will manage funding for the BioNetwork. The position will manage and maintain proper fiscal records for grant money and other funding, prepare necessary financial reports, and ensure proper allocation of funds in accordance with grant specifications or other funding restrictions. The position will work closely with the BioNetwork Director.

The North Carolina Community College System has been delegated the authority from the Office of State Personnel to establish positions in this classification. A copy of our delegated authority agreement is attached.
