Justification for Position (including description of duties and responsibilities):

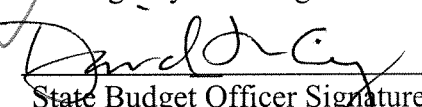

The primary purpose of this position is to provide complex analytical SAS programming, and support activities associated with development or update of current and new systems or special assignments for the DPI and the SBE. The functions of the position require that the employee have a strong analytical and programming knowledge as well as skills that will allow performance with little technical supervision. The position functions as a technical contributor on complex projects, specifically database projects. The responsibilities of the position require creative programming and analysis techniques and methods to resolve complex customer issues. Work will involve a variety of software and database structure and functions. Position will provide support for custom system components, specifically in database structures and procedures.

Statutory Reference for Request:

This request is being submitted in accordance with 2007 Session Laws, Chapter 323, Section 7.22, "Notwithstanding G.S. 143C-6-4, the State Board of Education may, subject to the approval of the Office of State Budget and Management, in consultation with the Office of Information Technology Services, and after consultation with the Joint Legislative Commission on Governmental Operations, use funds appropriated in this act for NC WISE to create a maximum of 10 positions or incur expenditures necessary to maintain and administer the NC WISE system within the Department of Public Instruction."
