Number of Positions: 1

	<u>Center Authorized Budget</u>	<u>Current Request</u>
Total Budget	\$	\$ 51,436
Receipts	_____	_____
Appropriation	\$	\$

Funding Source(s): DOT Receipts

Justification for Position (including description of duties and responsibilities):

Change Requested: Processing Assistant V (SG-61) to Environmental Engineer III (SG-78)

Background: EEP recently had 11 positions approved during the 2004 short session of the General Assembly. Since that time, this program has continued to evolve. Part of this evolution has been the identification of personnel resources needed to deliver program requirements. This has resulted in the need to modify the nature and purpose of this position. The requested revision is described and justified below..

EEP has determined that the number of support staff currently identified for the program is sufficient to meet program needs. At the same time, there is a need for additional support and expertise in the area of reviewing restoration project engineering designs for accuracy, adequacy and consistency. There is currently one person devoted to this task and this position revision would double the capacity. This is critical to a program that can and does have over 300 restoration projects ongoing at any given point in time.

The current receipt request includes salary at the minimum plus fringe.
